

# COULD TANGLES BE THE **ROOT** CAUSE OF YOUR HAIR WOES??

You may not know, but your follicles are a hot mess. Your hair naturally grows in random clusters. The strands may be spaced out, super close to another, or even have 2 to 5 strands emerging from the same pore! Unfortunately, each strand grows out in different directions. This results in unwanted tangles on a microscopic level.

Masa.Kanai introduces brand new scissors designed to detangle and straighten your follicles without cutting a single strand of hair!

## DETANGLING YOUR ROOTS WILL ALLOW YOU TO:

- Transform the flow & direction of natural hair parts
- Cover bald spots & eliminate sparse hair whorls
- Intensify or diminish volume at will
- Achieve more density & a cleaner scalp
- Instantly discover smoother & softer hair
- Experience beautiful & healthy hair growth

TANGLED TO STRAIGHTENED FOLLICLES WITH JUST A SWIPE!

The difference catapults with routine! Recommended at least once a month for best results.
