

# KERAFFECT PH LUXE

Keraffect PH Luxe is the latest breakthrough approach to hair treatments! As a healthy alternative to standard Keratins, Keraffect PH Luxe is a protein-based treatment that revitalizes the hair using pH balancing technology, without the use of harmful chemicals. Rather than coating the surface, this treatment uses acidic proteins to penetrate the cuticles, fill in damaged areas, and rebalance the hair to a healthy pH level - leaving the hair silky and soft.

A slow and meticulous process, but the results are undeniable. Watch your hair transform and vivify with each session!
